

# BIANCA A. MORRIS

561-781-2709 • [bmorris@wellesley.edu](mailto:bmorris@wellesley.edu)

**Summary:** UI Engineer with a passion for building clean, responsive applications. Recent Wellesley graduate with 3 years of programming experience. Regular attendee of hackathons. Seeking full-time positions starting June 2018.

## EDUCATION

---

**Horizons Engineering Fellowship** **Sept. 2017 – Jun. 2018**  
Year long engineering fellowship in San Francisco led by senior infrastructure and front-end engineers

**Wellesley College** **Graduated Oct. 2017**  
*Bachelor of Arts* in Cinema and Media Studies  
Cross-registered at MIT's Department of Comparative Media Studies

- Won Kensho Sponsor Prize at Hack MIT for Meet the Candidates Flask app, UI designer (Fall 2016)
- Web Director of Wellesley College Television (2016-17); 3<sup>rd</sup> Place WWIB Start-Up Competition (Fall 2016)

## RELEVANT WORK EXPERIENCE

---

**UI Engineering Intern (JavaScript, HTML, CSS, React)** **Mar. 2017 – present**  
**Kindred Talent** *San Francisco, CA*

Work closely with product lead to build various responsive UI workflows for users

- Own and implement several **React** UI components across the codebase
- Iterate on component design based on **user research**, founder, and investor feedback
- Push code to production weekly, participate in code reviews with tech lead, actively working on moving product from private beta to live public launch

**Digital Content Assistant (Drupal, HTML, CSS)** **Jan. 2016 - Oct. 2017**  
**Wellesley College, Office of Communications and Public Affairs** *Wellesley, MA*

Worked alongside the Web Director to maintain and expand the Wellesley College website

- Supported the execution of content and feature updates using **Drupal CMS**, **HTML**, and **CSS**
- Generated digital assets in **Adobe Photoshop**, **InDesign**, and **Illustrator**
- Conducted student body polls and **user research** for potential and previously implemented features

## FEATURED TECHNICAL PROJECTS

*More projects viewable at <https://www.github.com/bianca-morris>*

**Front-End Developer (JavaScript, Express, Handlebars, jQuery, Bootstrap), G-NOM** **Mar. 2018**

- Designed responsive front-end in **Express**, **Handlebars**, **jQuery** and **Bootstrap**
- Developed **Express.js** web app that generates meal plans based on users' genetic profiles
- Implemented **GenomeLink OAuth**, the **GenomeLink API**, and the **Edamam Recipe Search API**
- Won **1<sup>st</sup> prize** at Hack Your Genome @ UC Berkeley Skydeck's GenomeLink Hackathon, March 2018

**Full Stack Developer (Mobile with React Native, JavaScript), Fittest** **Dec. 2017**

- Designed typography and color palettes, wire-frames, user stories, graphics, and logos
- Implemented **Facebook OAuth** with custom **Passport.js** local strategy and middleware
- Developed **React Native** mobile social fitness application with **RESTful JSON API** backend

## SKILLS

---

**Development:** JavaScript (ES6), Python, HTML, CSS, jQuery, React, Redux, React Native, Vue.js, Express.js, Flask, PostgreSQL, MongoDB, Webpack, Heroku, Git, Ngrok, APIs, websockets, content management (CMS)

**Design:** Adobe Creative Suite 6 and Cloud (Photoshop, Illustrator, InDesign), DSLR Photography
